

Pump series IRP

Typical characteristics

- Industrial **air handling** pump.
- **High efficiency** and **low NPSH** in comparison with a classic liquid ring pump.
- **Close coupled**, very compact.
- Built from standard components.
- Limited noise level
- Easy maintenance
- **Electropolished**

Technical data

Max. flow	120 m ³ /h
Max. HMT	7 bar
Motor power up to	22 kW

Applications

The pumps of the IRP2 series are air handling pumps and mainly used to pump a mixture of liquid and air. They are therefore particularly suitable as a **CIP return** pump, as well as for **truck unloading**.
